PROJECTS

Mar 2023 – Aug 2023

ROAM Web Application for Armis-tech

Developed a responsive hotel booking web application using HTML, CSS3, JQuery for client-side and Laravel Framework for server-side. This is an ongoing project and is in development phase. This project was quite challenging and interesting since the features and UI needs to be coded precisely.

Jan 2023 – Feb 2023

Tundi Group Construction Pvt Ltd (<https://tundigroup.com/>)

Developed a responsive website using React Framework for client-side and Laravel for server-side technology. The website is dynamic, clean and simple UIs. React hooks were used to manage the states. This project took one and a half months to complete both the front-end and back-end.

Dec 2021 – Apr 2022

E-commerce website for Ultimodeal Pvt Ltd

Building new components and redesign user interface for the company's website with Nextjs and tailwind CSS. Making website responsive for all types of devices. Implementing payment gateways like Khalti, e-SEWA, NIBL.

Aug 2021 – Sep 2022

BI-enduser MySecondTeacher for Innovate tech

Developed a web application business intelligence end-user for MySecondTeacher in Scrum methodology. Graphical plotting like bar graphs, pie charts, and bubble charts using react libraries. React redux and redux saga for state management and data reading/binding. Other are react hooks, bubble sort, etc. Team meetings were handled in Slack and daily work updates were discussed.

COURSES

Broadway InfoSys

Certificate of Completion - Java Programming 2020
